HONORED GUESTS:

HERMAN SMETANIN,
Minister for Strategic Industries of Ukraine

«Herman Smetanin, Minister for Strategic Industries, visited the International Industrial Forum — the largest industrial exhibition in Ukraine.

The Head of the Ministry of Strategic Industries spoke with manufacturers working in industries related to defense, such as metalworking, machine-building, robotics, and others.

Herman Smetanin emphasized that it's crucial for him to understand the conditions in which enterprises operate and the challenges they overcome during their work, as well as the closeness of their interaction with defense industry enterprises.

«I'm glad to see year after year how technologies in Ukraine are developing and how our industrialists search for and find new non-standard solutions in the production process», noted the Minister for Strategic Industries of Ukraine.

Herman Smetanin expressed his conviction that the International Industrial Forum has become a platform for communication and establishing new partnerships».

KYIV GLOBAL EXPO

ANDRII TELIUPA,

Deputy Minister of Economy of Ukraine

«At the International Industrial Forum, Ukraine's largest industrial exhibition, discussions were held with representatives of machine-building enterprises, metalworking, and related industries on how the «Made in Ukraine» programs are functioning in the regions. Special attention was given to the localization program in public procurement, which aims to protect the interests of domestic producers in state orders».

ANDRII DANYK,

Head of the State Emergency Service of Ukraine

KYIV GLOBAL EXPO

DMYTRO KYSYLEVSKYI,

Deputy Head of the Verkhovna Rada Committee on Economic Development

The International Industrial Forum traditionally gathered dozens of high-tech product manufacturers in Kyiv. The «Made in Ukraine» brand could be seen at every turn. Industrialists seemed to compete, reporting on the increasing level of localization of their products. This is a very important trend, especially noticeable at this year's forum.

I visited it together with Andrii Teliupa and Ruslan Illichov.

Over the past three years, thanks to the localization policy, the Ukrainian component in this equipment has grown by an average of 30%.

This is just a part of the impressions from the International Industrial Forum. «Made in Ukraine» – it's awesome.

RUSLAN ILLICHOV,
General Director of the Federation of Employers of Ukraine

The team of the Federation of Employers of Ukraine, together with the Deputy Head of the Verkhovna Rada Committee on Economic Development Dmytro Kysylevskyi and Deputy Minister of Economy Andriy Teliupa, visited the XXIII International Industrial Forum, reviewed the expositions of the FEU members and got acquainted with new manufacturers.

The International Industrial Forum is a large-scale platform for leading enterprises of mechanical engineering, metalworking and related industries. This year, more than 250 companies from five countries are presenting their innovations on an area of 16,000 m², demonstrating advanced technologies, conducting seminars and establishing partnerships.

General Director of the FEU Ruslan Illichov noted:

«The presence of FEU member companies at such a large-scale event is not just a demonstration of achievements. This is a signal: Ukrainian industry is developing, modernizing, and looking to the future. These companies are the locomotives of change that we want to see in the economy of Ukraine».

The International Industrial Forum 2025 once again confirmed Ukraine's status as an active participant in innovative technologies and industrial development. The FEU will continue to support the development and modernization of industrial enterprises and the expansion of international cooperation.

EXHIBITOR TESTIMONIALS

ARAMIS

How Did the Industrial Forum 2025 Go for **ARAMIS**?

Powerfully, vibrantly, and effectively! It was powerful!

At the XXIII International Industrial Forum, **ARAMIS** once again confirmed its status as an innovation leader in the field of laser technologies.

Thank you to everyone who visited, became a partner, or simply showed their support! We continue our work – for a strong, modern, and independent industry in Ukraine.

DOMINANT

The «International Industrial Forum 2025» exhibition was wonderful!

Bravo to the organizers. More than 10 contracts were signed. Thousands of visitors, hundreds of new acquaintances.

Congratulations to the new owners on purchasing our equipment!

- ADLM (markers): one in Brovary and two in Kyiv
- Pipe cutter ADTR 0262: in Chernihiv

ABPLANALP

What was it? 3 days of drive, technology, and awesome connections! We've returned from the XXIII International Industrial Forum charged to 200%.

Thank you to everyone who stopped by our stand — without you, it would have just been equipment at an exhibition, but with you, it was a real celebration of engineering!

UASTAL

We haven't seen an exhibition like this in Ukraine for 5 years. It was incredible, and undoubtedly high-quality! Thanks to the event organizers. And special thanks to our large and friendly team at **STOROZHUK PLANT LLC** – together, we are strong!

METALWORKSHOP

International Industrial Forum 2025 — done.

We were there, where new solutions, agreements, and breakthroughs are born. This isn't just an exhibition — it's a focal point of the Ukrainian industry's strength.

It's about technologies that work. About connections that grow into cooperation.

We sold equipment. We made new connections. We forged agreements that lead to the future.

Thank you to the organizers for providing a platform where modern manufacturers can speak one language — the language of precision, power, and development.

STARTEC HOLDING

Industrial Forum '25: Building the Foundation for the Future.

An industrial foundation is the basis of any country's economy and security. Without a strong industrial base, there's no sustainable recovery, technological breakthrough, or true sovereignty.

Today, a real industrial foundation is being laid in Ukraine — powerful, innovative, and ambitious. The Industrial Forum clearly reflected these changes.

We are proud that **STARTEC HOLDING** is at the center of events and among those creating the country's new industrial power.

Thank you to the organizers, partners, and everyone who contributes daily to our common cause.

MACHINTECH

The International Industrial Forum has concluded.

MACHENTECH presented a large-scale stand featuring numerous machine tools for various types of metalworking. We warmly welcomed clients, partners, and many new customers who came to choose and order equipment to improve metalworking processes at their facilities.

Thank you to all visitors who stopped by our stand.

See you next year!

F.TECHNOLOGY

These were powerful, intense, and, as always, highly professional three days!

We sincerely thank all visitors and organizers of the Industrial Forum for the interesting meetings, meaningful conversations, and new opportunities.

We eagerly await the next events and are already preparing our #cool_ technologies!

ALISTA

ALISTA at the International Industrial Forum 2025!

Despite all the challenges, we once again took part in Ukraine's main industrial event

It was an absolute pleasure to meet with our partners and new clients at our booth — thank you to everyone who stopped by!

Special thanks to the organizers for the opportunity to be represented during these difficult times.

Together — to victory!

Glory to the Armed Forces of Ukraine!

STANKOPLAST

We're sticking to our tradition of selling and shipping equipment directly from the exhibition stand!

This year, we can boast about the sale of a BL170EKS-EVOLUTION injection molding machine, a hybrid machine with record-breaking energy efficiency indicators, and a lot of diverse peripheral equipment!

It's also worth highlighting the contracts signed during PLAST EXPO UA 2025 for the supply of equipment, both directly from **STANKOPLAST LLC**'s warehouse and by order.

METALIT

Metalit PJSC Foundry Enterprise received a Diploma/ Certificate for its participation in the XXII International Industrial Forum!

This award is more than just a piece of paper; it's a confirmation of our active position, unwavering quality, and commitment to development, even in the most challenging times. Participating in such a significant event as the Forum in Kyiv is extremely important to us.

We thank the organizers – «Kyiv Global Expo» – for the opportunity to be represented on such a crucial platform! This Diploma is a joint achievement of the entire **METALIT** team, which works daily to strengthen Ukraine's economic potential!

KVERB

Three days of active work, hundreds of conversations and new contacts, and immense interest in our equipment. We presented modern solutions for bending, welding, edge processing, automation, and much more.

A large number of specialists from across the country confirmed: Ukrainian industry strives for development. We are proud to be a part of it.

We sincerely thank everyone who visited our stand — your interest, your trust, and your feedback motivate us to become even better.

MOTORIMPEX

An exhibition is a fantastic opportunity to see what truly impresses. Our hydraulic tube bender was constantly on visitors' radar: demonstration after demonstration, dozens of questions, and genuine interest.

The result – it was sold right off the exhibition stand. Thank you for your trust!

ABICOR BINZEL UKRAINE

The UKRZVARUVANNIA 2025 exhibition has concluded — but the emotions remain!

Three days within the International Industrial Forum passed incredibly dynamically, intensely, and inspiringly!

The **ABICOR BINZEL UKRAINE** team sincerely thanks the event organizers, partners, colleagues, and all visitors who came to our stand.

We were happy to share innovations, present new equipment, and most importantly — communicate live with those who daily create the world of welding and metalworking in Ukraine!

See you at the next events!

Together, we are forming a professional community that works for the future.

LACOVER

Three days – countless meetings, new connections, and incredible energy!

Lacover sincerely thanks all clients, partners, and guests who visited our stand as part of the XIII International Industrial Forum.

This Forum became a true platform for exchanging experience, demonstrating our new products, and forging new partnerships. We presented innovative products, shared expertise, and discussed solutions that are changing the industry.

ALEXANDRIA PLANT OF LIFTING AND TRANSPORT EQUIPMENT

APLTE at the XXIII International Industrial Forum — New Orders and Leadership Confirmed

From May 27-29, we presented our solutions at the International Exhibition Center (Kyiv) — and these weren't just three days of exhibition, but a genuine dialogue with business.

During this time, we:

- Conducted dozens of technical consultations
- Performed individual equipment calculations
- Received real manufacturing orders

Our solutions for «complex» projects attracted particular attention — where others say «impossible», we design, manufacture, and implement.

The Forum once again confirmed: Ukrainian business needs reliable and flexible partners. And that's exactly the value we create — every day, every project.

UNITECH UKRAINE

The International Industrial Forum is an important event for industry development!

This year, we were pleasantly surprised by the number of visitors and participants. This once again proves: Ukrainian industry is working!

We believe that modern equipment and reliable cooperation are the keys to sustainable development.

Want to be a leader? Work with leaders! **UNITECH UKRAINE** is your partner in the world of industrial technologies.

Let's develop Ukrainian industry together!

SPETSTECHPROM SIG

Honest Impressions from Participating in the International Industrial Forum!

It was wow! So many cool companies under one roof, all charged with developing Ukraine! Three days of real movement, drive, new connections, and useful contacts. We met countless manufacturers, got inspired by ideas, exchanged experiences, and most importantly – introduced everyone to our Promstul brand. Our industrial chairs and stools passed the test drive for durability and comfort – from interested glances to genuine «ooo, this is comfortable»!

We weren't just exhibiting – we were having a blast!

Thank you to everyone who visited our stand, chatted, asked questions, gave feedback, and just generally joined us. And a big thank you to the organizers – you did it professionally! This is definitely not our last meeting – we're fully charged! Here's to new exhibition adventures!

TWEKO

Thank you for the meetings at the XXIII International Industrial Forum 2025! To the organizers for a professional event, and to all visitors — for your genuine interest in **TWEKO** solutions.

The International Industrial Forum became a true platform for demonstrating innovations and supporting Ukrainian industry!

Over 150 guests — representatives of manufacturing companies, distributors, engineers, and automation specialists — visited our stand. Over these three days, we received dozens of requests for customized solutions and new partnerships.

It was especially pleasant to hear: «We already know you!»

Many clients came to communicate live and strengthen partnership ties — and this is incredibly valuable to us.

We received valuable feedback that will help us further adapt technologies to the needs of Ukrainian industry.

We are grateful to everyone who visited the TWEKO stand — these three days were filled with live communication, presentations, and new ideas.

See you at future meetings!

WELLCOME AGAIN SOON
